Statement by the Community Colleges of Spokane Volleyball Team:

Dig Pink

By participating in the dig pink event, our team feels like we can give back to our community. Many of us have family and friends who have fought the battle of breast cancer and it is an issue that is very close to our hearts. There is too much that we take for granted and we don't always appreciate the small things. Our goal is to help someone else bring new appreciation in all aspects of life. There isn't enough time in one's life to be bitter or selfish, so why not help each other out? The *Side-Out Foundation* wants to help people regain control of their lives and live them to the fullest, and we want to help! We believe we should do for others, what we would want done for us.
